

Assignment 10 – Firebase Firestore Using Express.js

Required Submission Screenshots

1. Validation Error – POST /api/users

Screenshot showing the validation response when the email field is missing.

2. Firebase Firestore Connection

Screenshot showing Firebase Firestore connected successfully and the server running on localhost:3000.

```
~/Dow/Backend Development /Assignment10 > main node server.js
Firebase Firestore connected successfully.
Server running at http://localhost:3000
```

3. Successful POST Request

Screenshot showing HTTP 201 Created and User created successfully.

The screenshot displays a REST client interface with a dark theme. At the top, there are tabs for various files: `TC New Request`, `.gitignore`, `Assignment10`, `serviceAccount.json`, `package-lock.json`, and `serviceAccount-old.json`. The main interface is divided into two panels. The left panel shows the request configuration: the method is `POST` and the URL is `http://localhost:3000/api/users`. Below this, there are tabs for `Query`, `Headers`, `Auth`, `Body` (selected), `Tests`, and `Pre Run`. The `Body` tab shows the request body in `JSON` format, with the content:

```
1 {
2   "name": "Mitesh",
3   "email": "ymitesh760@gmail.com",
4   "age": 19,
5   "course": "B.Tech CSE"
6 }
```

 The right panel shows the response details: `Status: 201 Created`, `Size: 197 Bytes`, and `Time: 1.45 s`. Below this, there are tabs for `Response` (selected), `Headers`, `Cookies`, `Results`, and `Docs`. The `Response` tab shows the response body in `JSON` format, with the content:

```
1 {
2   "message": "User created successfully",
3   "userId": "fSybz2eu1MSESw9HRNo4",
4   "user": {
5     "name": "Mitesh",
6     "email": "ymitesh760@gmail.com",
7     "age": 19,
8     "course": "B.Tech CSE",
9     "createdAt": "2026-09-16T08:24:57.232Z"
10  }
11 }
```

 A `Copy` button is visible next to the response body. At the bottom right, there are buttons for `Response` and `Chart`.

4. Firestore Data Stored

Screenshot showing the users collection and the stored Mitesh document with its fields.
